

HERCA WORKSHOP EU-BSS DIRECTIVE IMPLEMENTATION

20th to 22nd May 2024

MADRID (SPAIN) | CSN HEADQUARTERS
(C/ Pedro Justo Dorado Dellmans, 11)

INTRODUCTION

HERCA members have been discussing for ten years about possible gaps and ambiguities in the European BSS Directive (EU-BSSD) that need to be addressed, difficulties encountered in the process of its implementation and room for improving the common approach of regulations stemming from the EU-BSSD in the different European countries.

That's why HERCA has organised a workshop to analyse and share the experience on the practical implementation of the EU-BSSD in national regulatory frameworks.

The workshop will take place at the conference room of the **CSN headquarters in Madrid**, which may house up to 80 people, and it will also be **broadcast by streaming** (link to be distributed to registered participants days before the workshop).

Each HERCA member country will have at least two places pre-allocated. Depending on capacity and ensuring all HERCA Member States representation, the number of places for each delegation may be increased up to a maximum of 8.

Representatives from the IAEA, NEA, ICRP and EC are also invited.

AGENDA*

	MONDAY 20 MAY	TUESDAY 21 MAY	WEDNESDAY 22 MAY
